SPRING WORKWEAR BUYER'S GUIDE

DISCOVER DURABLE GEAR FOR SPRING
AT REFRIGIWEAR.COM

UNPREDICTABLE SPRING WEATHER DEMANDS DEPENDABLE WORK GEAR

**Don't settle for
flimsy layers that
quit before you do.**

When it's cold and windy in the morning, then blazing sun by lunch, you better be ready for every kind of weather.

You don't get to tap out because the forecast got it wrong. You need gear that adjusts as fast as the weather does – and holds up when the job gets rough.

SPRING WEATHER MAY BE UNPREDICTABLE. YOUR WORK ETHIC ISN'T.

Dress in adaptable, durable layers and choose gear that can take a beating.
Gear up with durable, weather-ready workwear for spring from RefrigiWear.

LIGHTWEIGHT JACKETS & RAIN GEAR: PG 4

If you're doing heavy-duty work this spring, you need a lightweight jacket that can keep up. Look for durable, weather-ready materials that shed rain and block wind without weighing you down.

SPRING-WEIGHT SWEATS & WORK SHIRTS: PG 6

A warm, durable sweatshirt keeps your core warm during cold mornings without locking you into bulk you'll regret by noon. Pair it with lightweight base layers or snag-proof short sleeve work shirts to stay flexible, comfortable and productive all day long.

WEATHER-READY WORK PANTS: PG 8

Spring weather is unpredictable. Your pants shouldn't be fragile. RefrigiWear work pants are built to last with reinforced knees that won't split when you squat, plus heel reinforcement patches that keep your pant legs all in one piece. Add water-repellent, abrasion-resistant fabrics and you're ready to work through anything the job throws at you.

WATERPROOF WORK BOOTS: PG 9

Choose slip-resistant work boots to grip wet surfaces, concrete, steel, and packed dirt. Waterproof construction keeps your feet dry, while safety toe protection and supportive midsoles help you power through long shifts without feeling every rock and rut underfoot.

DURABLE WORK GLOVES PG: 10

Go with durable work gloves that offer strong grip in wet conditions and enough toughness to survive rough materials, sharp edges and daily abuse. When temperatures swing, having a couple of glove weights on hand lets you swap out as needed without sacrificing protection or control.

LIGHTWEIGHT JACKET & RAIN GEAR

A smart outer layer, like our HiVis 3-in-1 Rainwear Jacket, gives you options. Wear it as a simple shell on warmer drizzly mornings and zip in the insulated liner when temps dip.

REFRIGIWEAR

9178

HIVIS 3-IN-1 RAINWEAR JACKET

Wear the waterproof jacket alone or add the inner jacket when it's colder. Outer jacket meets ANSI/ISEA 107-2020 - Type R, Class 3 standards.
